

POSITION DESCRIPTION

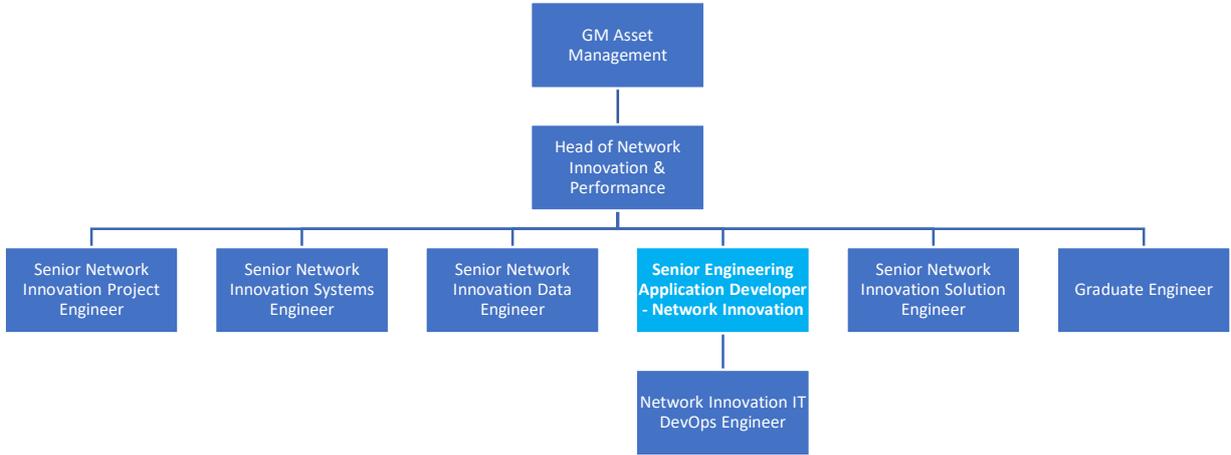

Position title:	Senior Engineering Application Developer – Network Innovation		
Reports to:	Head of Network Innovation & Performance		
Group:	Asset Management	Unit:	Network Innovation & Performance
Revision (M/Y):	04/2025	Date:	23 April 2025

Purpose

The electricity industry is facing a significant amount of challenge due to decarbonisation and electrification. As part of WEL’s long term strategy to manage the energy trilemma on sustainability, resiliency and affordability, we are creating this role to support our transformation towards a DSO (distribution system operator), focus on safety, resiliency and sustainability.

To lead the Network Innovation & Performance (NIP) engineering software design, implementation and user support, work with the wider business and our customers applying innovative solutions to accelerate the transformation to a future service model, enabling WEL to operate as a DSO.

Our Purpose

Enabling our *communities to thrive*

Our Vision

To create and support an *innovative and sustainable energy future*

Best in Service

So we have the *trust of our community*

Best in Safety

Every Day - *Home Safe*

Our Values

Agile

We listen to ideas, we explore opportunities and we adapt to changing situations with an open mind. When change is needed we make sure we understand why and we make it work. We're flexible and we respond professionally to change.

Build the business

We make sure our day to day activity is sound while exploring ways to improve the way we work or things we do. We often ask "is there a better way to do this?" and we investigate options.

Care for each other, the customer and our assets

We work as a team across the business to do things the right way. We treat others with respect, listening to their needs so we can deliver a reliable and safe service to our communities.

Do the right thing

We make decisions with integrity and when we can, we help others make the right decision for their situation. We're open, honest and trustworthy. We speak up if we feel we should and we listen to others.

Every Day - Home Safe

We lead by example to keep ourselves, our workmates and our communities safe. We use the right equipment, we challenge unsafe acts and we say no if we think it's not safe.
